Using Playing Cards in Training

Group Change Technique

Pre-arrange Playing Cards into separate suits each suit having the number of people you want in each group. Then take one card from each suit and keep doing so until you have a pack containing the same number of cards as people.

When you deal the cards say Hearts at this table, Clubs at this table and so on. Low and behold the group will be mixed.

Group

Can be done straight after the group change process or independently. Simply deal the cards or have them look at the card they have been dealt and the highest or lowest card holder becomes the new group leader.

Review Technique

Use sticky labels on the backs of the cards, each with a question relevant to your content. Put hard questions on Aces, increasingly easy questions down to the twos.

When reviewing have each group or participant choose a card domination according to their degree of confidence and if they can answer the question on the back of that card they get awarded points. High cards with more difficult questions get higher points. The winning group or individual wins the fabulous prize eg CTT Smiley Face Stress Ball, Creative Whack Packs, Plastic Playing Cards (will never get worn or tatty looking), Customised Post it Note pads etc.
